Welcome to Eccah Company (T) Limited

Eccah Company Limited is a dynamic Tanzanian construction firm established in 2019, operating under all legal and regulatory frameworks governing the construction industry in Tanzania. Since inception, we have built a solid reputation for job excellence, driven by a passion for **quality, stability, and innovative leadership** in the construction sector.

We specialize in **civil engineering, building construction, quality supplies, and real estate developer support, office & interior design fitouts** delivering solutions that help our clients achieve their long-term strategic goals. More than builders, we are **partners in progress**, combining precision, reliability, and forward-thinking strategies to create sustainable infrastructure that transforms communities.

Our rapid growth has positioned us among the **fastest-expanding civil and building contractors** in Tanzania, supported by a team of highly skilled professionals and technical experts across various aspects of construction. With strong relationships with **manufacturers, international suppliers, and industry specialists**, we integrate global standards with local expertise to deliver projects that meet the highest benchmarks of quality and sustainability.

At Eccah Company Limited, our reputation is built on **trust, excellence, and innovation** — ensuring every project becomes a landmark achievement.

Our Vision

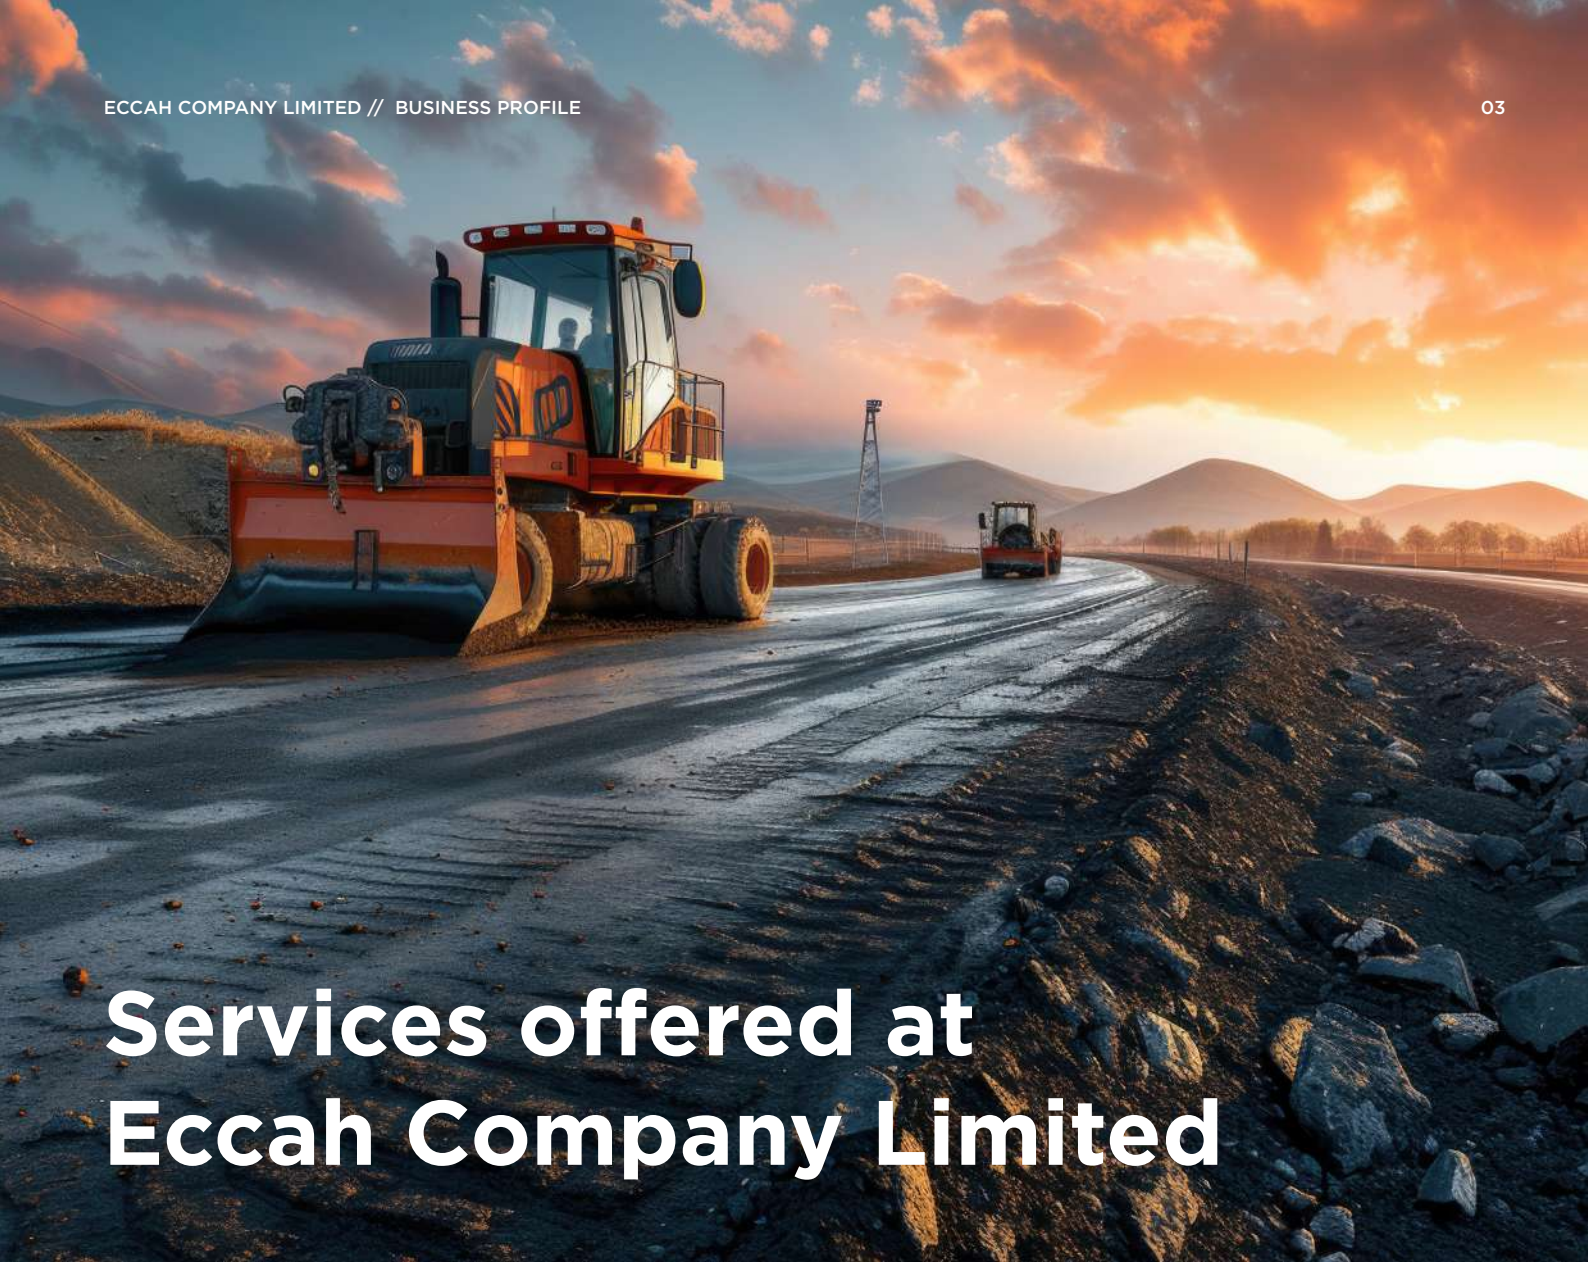

To go beyond the traditional construction services and seek to add value through “turn-key” and “design & build” approaches to meet the ever-changing needs of our clients and make sure that we exceed client’s expectations. To excel in supply chain, value chain, sustainable green construction and BIM. To enhance our specialist expertise by collaborating with other partners in a wide range of sectors such as tunnels underground transport, rail, dams, pipelines, airports and solar energy

Our Core Values

We are committed to professional integrity, professional ethics, trust, honest, transparency, accountability, equity, quality, punctuality/timely delivery, compliance, confidentiality, impartiality, courtesy, consistency and focus.

Our Mission

To build a dynamic and competitive firm which can satisfy our client’s needs by enhancing quality of services provided, clients’ value of money while rendering construction services to our esteemed customers. To find annual growth, to offer challenge, opportunity and advancement for our employees.

Services offered at Eccah Company Limited

Eccah Company Limited is basically specialized in;

- Building projects (Including ICT (Data & Voice) and Security Systems i.e (CCTV camera, Door Access and Electric Fence)
- Civil engineering works
 - > Road construction
 - > Bridges
 - > Civil works associated with telecommunication (transmission) towers
- General Material Supply & Logistics
- Real Estate Development
- Office & Interior Design Fitouts
- Solar Energy Systems
- Swimming pools (Conventional & Elevated Hydrosight)

Growth Strategies & Market Opportunities

Eccah Company Limited is advancing rapidly with all basics and criteria that guarantee capacity of the company in terms of human resource, tools & instruments. We are keen to engaging our staff with short courses and seminars (workshops) offered by various organs in construction industry such as, Contractors Registration Board (CRB), Architects & Quantity Surveyors Registration Board (AQRB), Engineers Registration Board (ERB) which in turn increases the scope of managing contracts and related matters to construction industry. The company major competitors are medium construction firms operating in Arusha, Manyara, Dodoma, Morogoro, Moshi, Dar es Salaam, Mwanza and Mbeya. Eccah Company Limited believes that the best way to market construction work is enhancing the quality of the project and the reliability of the company to its customers.

Health and Safety

Occupational Health and Safety (OHS) is our first priority. We are committed to providing a safe and healthy working environment for all our employees, subcontractors and the public. Eccah Company Limited has Health, Safety and Environmental policy whose objective is to provide support in all aspects of health and safety related to field and administrative operations. Our Health and Safety program also includes site alertness and training of employees on critical health and safety topics.

Innovation

Our company is committed to invest in technologies and innovative solutions to best realize competitive advantage over other firms in areas of building & civil engineering construction, material logistics, project management, Building Information Modeling (BIM) and green construction.

Plants, Equipment and Technology

Our office is computerized with powerful CAD programs like AutoCAD, Arch CAD and is being administered by a well knowledgeable secretary cum accountant. We also use Project Manager (Microsoft project) in monitoring our projects. Our commitment to innovation is exemplified by our ambition to adopt sophisticated plants with the latest technologies, managed by our PET department. Eccah operates her own gear, including concrete mixers, trucks, cranes, graders, and excavators. However, when constrained by a lack of resources, we deploy hire services.

Quality Control

Eccah Company's Quality Control Unit has taken an innovative approach to quality management, where services are provided on an integrated basis across two functional areas: the Engineering group and the Technical group.

Load and Support Shoring System

The Load and Support Shoring System is an innovative shoring system adapted by Eccah Company Limited intended to reduce erection time, and risk of working at heights.

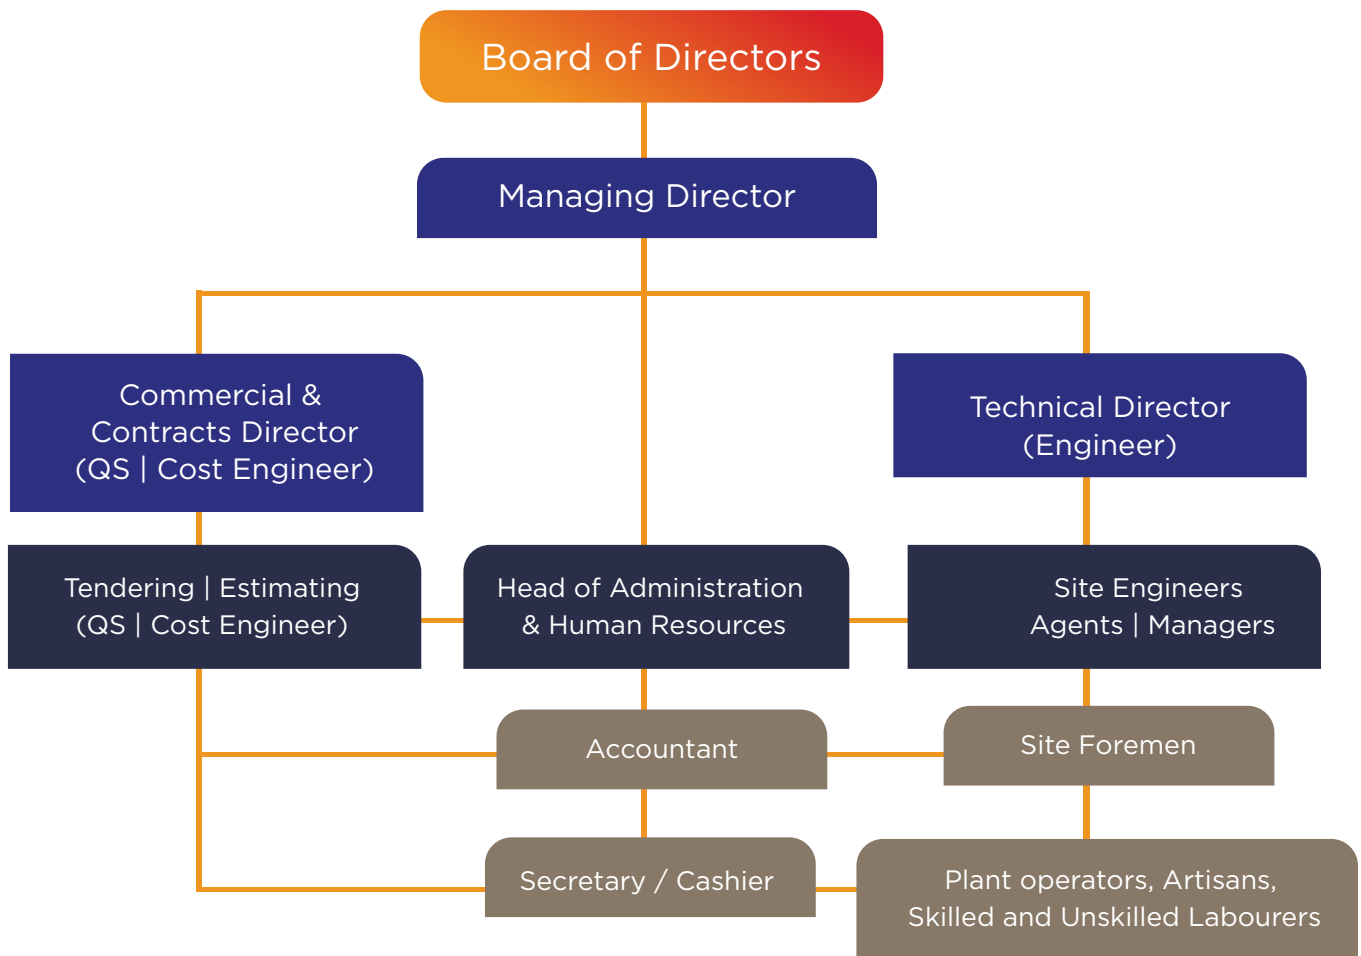

Organisation Structure | Chart Of The Company

All departments within our company provide service and support within a teamwork environment which allow us to meet our company objectives. Eccah Company Limited’s organizational structure focuses on five (5) functional areas:

- Technical & Operations
- Contracts, Planning and Tendering/Estimating
- Finance/Administration and Human Resources
- Plants, Equipment & Technology
- Health, Safety and Environments

RESIDENTIAL PROJECT

Mr. Mathias Mmassy

Address:

**Kibosho, Moshi, Kilimanjaro,
Tanzania**

Status

Completed (2020 - 2022)

Project Concept:

A compact two-storey, in Moshi's suburb, featuring earthquake-resistant reinforced concrete structure. The building is finished with burnt clay tiles and cement and sand plaster while it is painted with weather guard and textured paint solutions. External amenities include ground-floor parking/open verandas and upper-floor bedrooms/living spaces optimized for families. Sustainability features focused on local stone cladding, energy-efficient LED lighting, renewable solar design with cross-ventilation, and rainwater harvesting for low-maintenance tropical living.

Project Value:

Budget: TZS 350-400 million; timeline: 12 months construction post-approvals.

Assignment Name:

**Proposed Construction Of Single
Storey Residential Building in Moshi**

Name Of Consultants:

KAPWANI ARCHITECTS

Our Projects

MACHARE INVESTMENT

COMPANY LIMITED

Machare Investment Co. Ltd

Address:
Moshi, Kilimanjaro, Tanzania

Status:
Completed (2020 - 2022)

Project Concept:

A 5,000-square-meter contemporary go-down in Moshi, Tanzania, will alleviate storage limitations for both brewing items and agricultural goods such as coffee and maize as regional trade expands in 2020. Key features included a reinforced concrete structure, climate-controlled zones, solar-powered lighting, and simple truck access. The project is intended to increase local farmer incomes by 20% due to reduced post-harvest losses.

Project Value:

Estimated cost: TZS 3.5 billion; timeline: 18 months from groundbreaking.

Assingment Name:
**Proposed Construction
of Go-down in Moshi, 2020**

Name Of Consultants:
N/A

Our Projects

Mr. Goodluck Kimathi

Address:
Patandi Tengeru, Arusha, Tanzania

Status:
Completed (2020)

Assignment Name:
**Proposed Residential
Apartment for Mr. Goodluck Kimathi
at Patandi Tengeru Arusha, 2020**

Name Of Consultants:
Not/Applicable

Project Concept:

This idea envisioned a modern two-story residential apartment complex with three and four-bedroom layouts designed for family living. Solar-powered utilities, safe parking, community green spaces, and an earthquake-resistant architecture tailored to the terrain of Arusha are all important features. The initiative intends to provide cheap, high-quality homes while also improving community aesthetics and sustainability.
